

### THE RULES

Or rather, our version of the rules. Which is basically, there are no rules! We're all for making it your own – it's why we started Whisky Blender in the first place – and we want you to carry on that tradition. We've given you some pointers, but it's your own whisky, so taste it your way.

WHISKY NAME:

FIRST THING I COULD SMELL WAS:

FIRST THING I COULD TASTE WAS:

BOTTLE CODE:

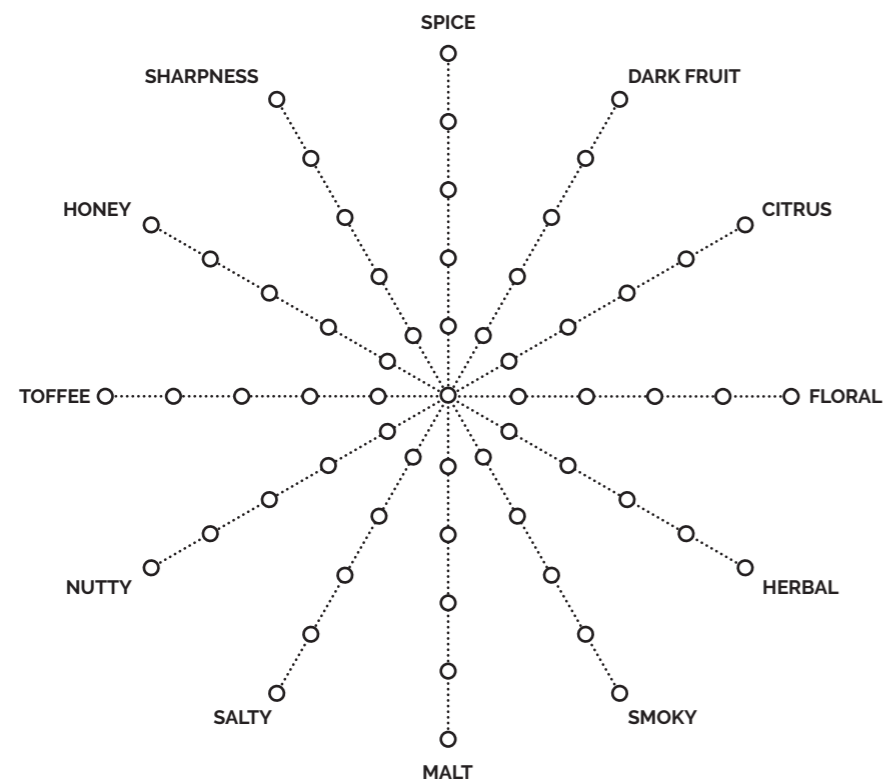

NO WATER

WITH WATER

### FLAVOUR WHEEL

Use this to plot the taste of your own whisky. Have a sip, then mark up what you taste – the stronger the flavour, the further out on the spoke. When you're happy, try joining the dots to create your own unique whisky profile.

Use this space to jot down any thoughts you have while tasting your whisky – the stranger, the better!

### NOSE

We'd suggest going in for a nose without disturbing the liquid at all, then maybe a second time to really get your nostrils around it!

### PALATE

How does the whisky make your mouth feel? What are the strongest flavours? Does it remind you of anything?

### FINISH

What's lingering on your tongue – and for how long? Is it different to the initial sip? Stronger? Is it warm? Spicy? Sweet? Smoky?

### #MYOWNWHISKY

Did you know that whisky changes when you change? If you try it at a different time of day or in a different setting, you'll enjoy a totally different experience. So why not download this tasting chart at [whiskyblender.com/goodies](http://whiskyblender.com/goodies), try it again at a later date and see if you can find that elusive 'perfect' dram? Though when it's your own whisky, every dram is pretty perfect.
